Versa Titan

Cloud-Managed Secure SD-WAN

The Easy Button to Connect, Secure and Manage Your Branch

Versa Titan is a cloud-managed Secure SD-WAN service that reduces the cost, time and complexity associated with WAN transformation.

Versa Titan makes it easy to deploy and manage your network edge, simplifies the branch with fewer devices, enhances visibility and control of applications, bandwidth utilization, network performance and security vulnerabilities.

- Context-aware Enterprise-grade networking and security
- Cloud-aware and SaaS Accelerated for dynamic direct-cloud access (AWS, Azure, O365, G-Suite, Workday, Salesforce and more)
- Automated for lean IT

One touch. One view. One network.

Easily manage the WAN from the cloud

Versa Titan: Complete Cloud Managed IT Solution

TITAN OVERVIEW

- Cloud-managed IT service that improves business continuity and operational efficiency
- Protects your business from cyber threats with built-in security
- Eliminate complexity by removing multiple appliances with a single multi-service platform
- Speeds up deployment and automates change management

The Easy Button for IT

Simplify deployment and operations of your branch network via an intuitive UI (user interface) that integrates provisioning, configuration, monitoring and license management. Versa Titan provides you an easy button to configure and secure your branch.

Versa Titan enables IT management anywhere, anytime via a cloud-managed portal and mobile app. IT is provided granular contextual visibility to the users, devices, application and network of the entire estate from the cloud.

Versa Titan delivers the following capabilities at the branch:

- Routing, Secure SD-WAN, CGNAT
- WAN: MPLS, broadband,3G/4G, LTE-A
- LAN: Ethernet & WiFi
- Multi-Link with Dynamic Path Selection
- Application Traffic Steering and QOS
- User/Application visibility and prioritization
- Integrated security: NGFW, URL Filtering, NG-IPS

Quickly and securely activate sites from your mobile device
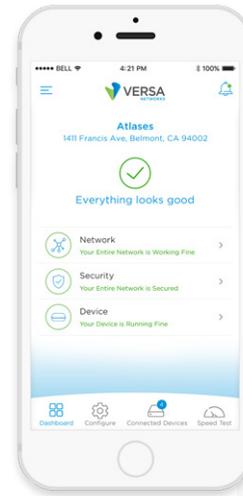

Customize or choose EZ-Pick to quickly configure a site
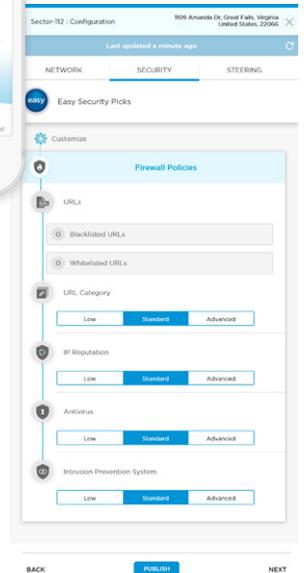

Clean interface to rapidly configure networking, security and traffic steering

*Seamless management experience, whether mobile-app or web-based browser*

Cloud-managed SD-WAN and SD-Security to support business agility

IT automation with always-on management and support to keep your business up and running – without draining IT resources.

Deploy sites fast, increase site capacity and application performance intelligently

Versa Titan is a Secure SD-WAN service for Lean IT, optimized for delivering enterprise and cloud applications while reducing WAN costs and improve site reliability to meet evolving business transformation objectives.

*Intuitive and easy to configure advanced security.*
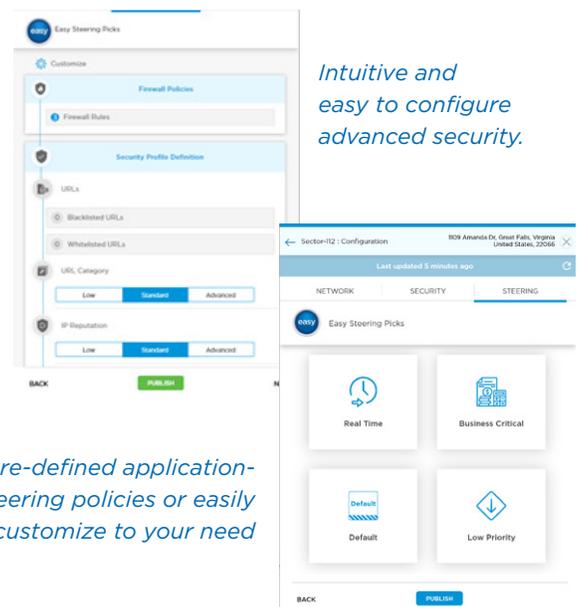

Use our pre-defined application-traffic steering policies or easily customize to your need

Secure users, devices and sites for WiFi, LTE and Internet

Security is inherent to Versa Titan with an NGFW included in the default package and UTM as an optional service. Gain real-time, advanced security for on-premises and cloud WAN paths, strengthening compliance and protection requirements, with network micro-segmentation, traffic encryption and sophisticated encryption management capabilities to ensure hybrid-WAN security from day one.

Granular and contextual visibility to application utilization at the branch
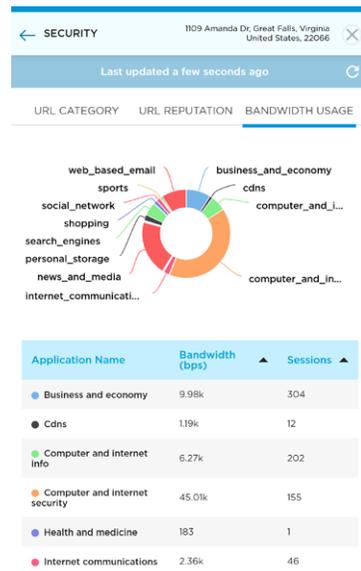

Quickly get a view into any security risks and correlate to what kind of traffic and categories
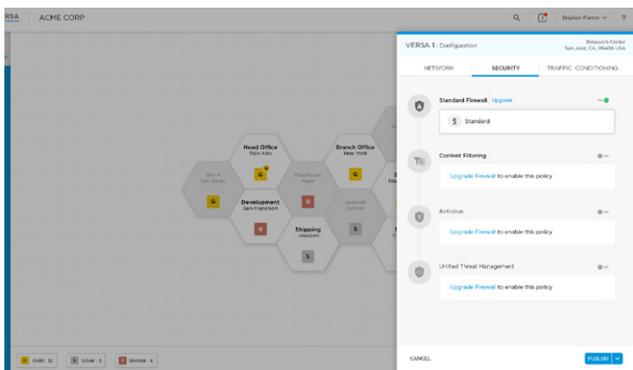

Instant status updates for your sites, device, security and networking

Simplified Control and Visibility

Versa Titan provides application optimization and WAN services management controls in one integrated, cloud-based console and mobile app. Now, it's easy to automate and reprogram policies across multiple clients, and multiple virtual network functions, and monitor and analyze the impact of associated changes.
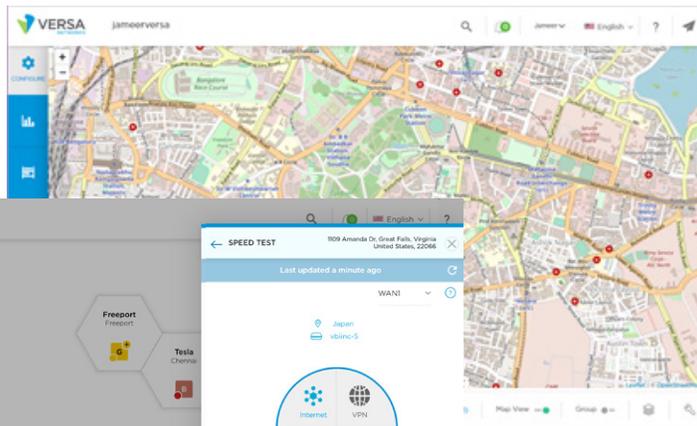

Map your sites and check performance of Internet or site-to-site VPNs

Troubleshoot the branch and check WAN performance

Fast and Efficient Support

Get quick and easy access to Technical support through the on-line portal and mobile-app to access:

- Self-help tutorials
- FAQs
- Community support
- "How to" videos
- Live chat with technical experts

Manage your software licenses and even RMAs right from the portal

Versa Titan comes in three Service Level Packages with optional security add-ons and even POE, LTE and Wi-Fi to ensure you purchase and deploy what your network edge specifically needs:

Service Tiers

Performance	Appliance Series	Appliance Options	Enterprise	Advanced Security Option	HW Warranty and Support
Up to 2 Gbps	CSG770	LTE, WiFi, POE+	Routing, SD-WAN, NGFW, URL Filtering	UTM/IPS/AV	RTF Included NBD Optional
Up to 800 Mbps	CSG750	LTE, WiFi, POE+		UTM/IPS/AV	
Up to 200 Mbps	CSG730	LTE, WiFi		N/A	
Up to 500 Mbps	CSG365	LTE, WIFI, POE+		UTM/IPS/AV	
Up to 200 Mbps	CSG355	LTE, WIFI, POE+		UTM/IPS/AV	
Up to 200 Mbps	CSG350	LTE (Dual)		N/A	

Features

	Routing	SD-WAN	Stateful Firewall	Next Generation Firewall	Auto-VPN	Carrier-grade NAT (CGNAT)	URL and Content Filtering	Malware and Virus Protection
Enterprise	✓	✓	✓	✓	✓	✓	✓	✗
Enterprise plus Advanced Security	✓	✓	✓	✓	✓	✓	✓	✓

	Next Generation Intrusion Prevention	WiFi	LTE	Application Visibility and Control	Cloud-Managed	Easy Button Policies	Zero-Touch Provisioning
Enterprise	✗	✓	✓	✓	✓	✓	✓
Enterprise plus Advanced Security	✓	✓	✓	✓	✓	✓	✓

Versa Cloud Services Gateway Appliance Configurations

Versa CSG series appliances provide a wide range of price and performance points to cover diverse business needs.

	CSG770-WLA-4GP	CSG770-WLA	CSG770	CSG750-WLA-4GP	CSG750-WLA	CSG750	CSG730-WLA	CSG730
Performance	Up to 2 Gbps	Up to 2 Gbps	Up to 2 Gbps	Up to 800 Mbps	Up to 800 Mbps	Up to 800 Mbps	Up to 250 Mbps	Up to 250 Mbps
LAN/WAN	6xGbe	6xGbe	6xGbe	6xGbe	6xGbe	6xGbe	6xGbe	6xGbe
Dual-Band WiFi	Yes	Yes	No	Yes	Yes	No	Yes	No
3G/4G/LTE-A	Yes	Yes	No	Yes	Yes	N/A	Yes	No
POE/POE+	4 ports	N/A	N/A	4 ports	N/A	N/A	N/A	N/A
Bluetooth (BLE)	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
Services	Routing, SD-WAN, Security, NG-IPS, URL filtering, Anti-Virus, CGNAT, Auto VPN							

* Please refer to the CSG700 Series datasheet for the most up to date options, performance and information
** Please note that that the -WLA options for available appliances also comes in a -WLB for non-Americas usage.
*** Please note that IPv6 and uCPE are not support with the CSG700 series for use with Versa Titan
**** Please note that the CSG730 and variants do not support Anti-Virus and NG-IPS

Versa CSG300 series appliances provide a wide range of price and performance points to cover diverse business needs.

**** Please note that the CSG350 and variants do not support Anti-Virus and NG-IPS

About Versa Networks

Versa Networks, the leader in Secure SD-WAN, combines full-featured SD-WAN, complete integrated security, advanced scalable routing, genuine multi-tenancy, and sophisticated analytics to meet WAN Edge requirements for small to extremely large enterprises and Service Providers. Versa Secure SD-WAN is available on-premises, hosted through Versa-powered Service Providers, cloud-delivered, and via the simplified Versa Titan cloud service designed for Lean IT. The company has transacted hundreds of thousands of software licenses globally through its global Service Providers, partners, and enterprises. Versa Networks is privately held and funded by Sequoia Capital, Mayfield, Artis Ventures, Verizon Ventures, Comcast Ventures and Liberty Global Ventures. For more information, visit https://www.versa-networks.com or follow Versa Networks on Twitter @versanetworks.
